Hospital Grade disinfectant cleaner for use on all surfaces

Soodox Vytal Hospital Grade Disinfectant kills Covid-19 virus in 60 seconds and protects for 7 days.

Soodox Vytal has been formulated to provide long term microbial control, ensuring that surfaces remain germ free.

Soodox Vytal is compatible with the vast majority of both natural and synthetic surfaces prone to microbial colonisation.

- Kills Covid-19 in 60 seconds
- Protects surface areas for 7 days or up to 200 touches
- Kills 99.99% of bacteria including MRSA and VRE for 28 days
- Kills Fungi, Viruses, Norovirus and Influenza for 28 days
- TGA, HACCP, NEA approved
- Compatible with majority of both natural and synthetic surfaces
- Suitable for use on direct food contact surfaces such as cutting boards and utensils (rinse with water after disinfecting)
- Not to be used on copper
